CONFLICT MINERALS DECLARATION

The PMN Bobrek company is aware of its moral responsibility and the accepted principles of business ethics, and therefore supports the requirements for minerals from conflict-affected regions resulting from the Dodd-Frank Wall Street Reform and Consumer Protection Act adopted in July 2010 by the U.S. Congress, in particular with Article 1502 which imposes reporting requirements on listed companies in terms of information on the use of „conflict minerals” in their products, i.e.: tantalum, tin, tungsten and gold (3TG).

We declare that all raw materials and materials purchased by our company come from responsible sources, we do not enter into cooperation with suppliers involved in business in conflict-affected or high-risk countries or areas. Simultaneously, we expect our suppliers to comply with social responsibility principles when sourcing raw materials and materials for their business activity, and to implement safe sourcing policies and require the same from their suppliers.

PMN Bobrek informs that 3TG raw materials are not used in its products.
